

On 6 March 2019 we submitted this email to SECAMB:

Dear Sirs,

The ambulance station in Midhurst was closed and sold off in 2016. We had been led to believe that an ambulance would be located by the fire station in New Road but this has not come to pass.

Today, on the BBC website, there was a link that enabled us to see average response times for any location in the country. The average response time for GU29 is 17m 36s, which is not surprising given the distance an ambulance has to cover to get here. However, it is twice the advisory response time, and it is putting the people of Midhurst at risk.

I understand that Midhurst Town Council have approached you on this matter with no satisfactory response.

Please advise what plans you have for locating an ambulance in Midhurst, and I would be obliged if you could treat this matter with some urgency.

Sincerely,
Harvey Tordoff
The Midhurst Society
